

## E-Rate iboss FWaaS for Schools & Libraries

The digital landscape of education has seen a paradigm shift. With school data, applications, and services transitioning from the traditional datacenter to the cloud, the exposure to threats has magnified. Recognizing this, iboss offers the Zero Trust Edge FWaaS tailored for Education. Designed to enable school districts to phase out outdated on-premises solutions, the iboss ZTE FWaaS offers a cloud-centric approach that transcends the capacities of conventional Next Gen Firewall products. The iboss platform proudly serves over two thousand school districts, including the nation's largest schools.

The iboss ZTE FWaaS provides schools with advanced threat protection, cloud app firewall monitoring, an intrusion prevention system, top-tier antimalware defense, and DNS security. Consequently, schools attain unmatched internet policy oversight across all students, bolstering the institution's cybersecurity resilience to military-grade standards. This ensures the safeguarding of a school's most vital data from the threat of cyberattacks. And with 85% of the costs covered by E-Rate, Schools and Libraries are presented with an opportunity to access advanced FWaaS technology at a fraction of the standard costs.

### BENEFITS

- ⏻ Significant cost savings with 85% E-Rate coverage
- ⏻ Advanced threat protection elevating cybersecurity to military-grade standards
- ⏻ Seamless transition from outdated systems to a cloud-centric firewall solution
- ⏻ Hassle-free procurement process with direct E-Rate payments to iboss
- ⏻ Comprehensive solution with CIPA filtering for school compliance
- ⏻ Schools and Libraries secure their digital infrastructure while making substantial budgetary savings

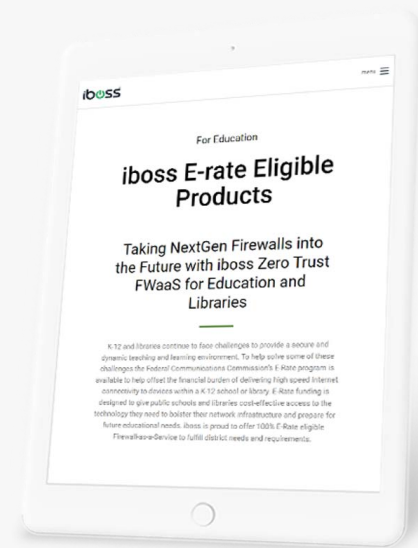

# E-Rate iboss FWaaS for Schools & Libraries

Introducing iboss Zero Trust Edge (ZTE) Firewall-as-a-Service (FWaaS) for the K-12 Education sector. Fully USAC compliant and 85% E-Rate eligible, this cloud-based solution provides schools a powerful alternative to legacy systems and VPNs. Schools and Libraries benefit from unparalleled security, all while covering just 15% of the costs.

## Ordering Information

SKU: E-Rate iboss FWaaS

Includes Package: Zero Trust Advanced

## HOW IT WORKS

- E-Rate Savings:** Schools pay just 15% of the iboss platform costs and do not have to wait for reimbursement.
- Simple Application Process:** Start with the submission of FCC Form 470 and await bids.
- Select iboss:** Evaluate bids, select iboss, and pay only 15% of the total invoice for up to five years to lock in price with no additional out of pocket costs.
- Finalize Documentation & Receive Approval:** Collaborate with iboss to submit FCC Form 471 and receive the Funding Commitment Decision Letter.
- Submit Confirmation iboss Service has Started:** Complete FCC Form 486 to confirm service initiation and CIPA status.
- Outstanding Balance is Paid Directly to iboss:** E-Rate directly compensates iboss the remaining 85%, eliminating hefty payments from Schools or Libraries.
